## ABOUT AUSROAD®

At AUSROAD®, we've been designing and building tough, reliable road maintenance vehicles in Queensland since 1990. With over 35 years of hands-on experience, we know what it takes to get the job done - safely, accurately and efficiently.

From Local Councils to global contractors, our machines are trusted by the people who keep roads operating. Why? Because we don't just meet expectations - we help our customers exceed them. Whether it's building smarter tech, improving safety on-site, or tailoring equipment to suit your needs, we're always pushing the benchmark.

Need flexibility? We've got you covered with a fleet of high-performance vehicles available for both wet and dry hire, ready when and where you need them.

At AUSROAD, we're not just in the business of machines — we're in the business of solutions.

**SAFETY | ACCURACY | EFFICIENCY**

It's what we stand for.

# AUSROAD®

# LEAVE THE EXPERTISE WITH US

At AUSROAD, we offer end-to-end project solutions, taking care of every detail so you don't have to. Simply tell us what you need and we'll handle the rest, this ensures your hiring experience will be productive and trouble-free. We have many long-term and repeat hiring customers and look forward to assisting new ones.

Our comprehensive solutions are uniquely adaptable to each client's circumstances, providing a truly hands-off experience.

We'll take care of:

- Coordinating the right vehicles for the job
- Providing skilled operators, complete with training and support
- Supplying necessary accessories and equipment
- Arranging delivery and logistics to site (mobilisation)
- Managing traffic control to ensure safe and efficient operations
- Offering service and maintenance support to minimise downtime

With AUSROAD, you can trust that every aspect of your civil project is covered. Our experienced team will work closely with you to understand your requirements and deliver tailored solutions that meet your needs. We'll handle it all, so you can focus on your core business.

Leave the expertise with us and let us deliver the results you need.

# ALL SAFETY MEASURES IN PLACE

Our quality control meets the highest standards based on **ISO AS/NZS 9001**.

We comply with Transport for **NSW WORK HEALTH AND SAFETY (CONSTRUCTION WORK)**®

– Transport for **NSW IC-DC-G22**.

## MAXIMISING UPTIME WITH PROACTIVE MAINTENANCE

At AUSROAD, we're committed to ensuring our road maintenance vehicles perform at their best. Our in-house maintenance team closely monitors each vehicle's schedule, knowing exactly what needs to be done and when.

This proactive approach minimises downtime and maximises output. When you lease or hire our vehicles, you benefit from our rigorous maintenance program, which includes:

- Regular maintenance schedules to prevent issues
- Thorough testing before delivery to ensure each vehicle is road-ready

When maintenance is due we replace vehicles on site, ensuring your project stays on track.

## OUR FLEET: RELIABLE SOLUTIONS FOR EVERY NEED

At AUSROAD, we offer a diverse range of road maintenance and civil equipment, available for both wet and dry hire to suit your specific requirements.

Our modern fleet is designed to deliver exceptional performance, safety and efficiency, tailored to meet the demands of various road maintenance projects.

Whether you're looking for a single vehicle or a comprehensive fleet solution, our team is here to help you find the perfect fit for your needs.

# WHY HIRE OR LEASE INSTEAD OF PURCHASE

## 1 FREE UP YOUR CAPITAL

With any downturn in the economy, every dollar counts, having the cash on hand to grow your business is better than tying it up in trucks parked in the yard.

## 2 NO MAINTENANCE

Save money on services and maintenance, we deal with this, all you need to do is complete your contract.

## 3 NO EXTRA STORAGE NEEDED

When the road maintenance trucks are no longer required storage on your site is not necessary, we simply pick them up at the end of the hire.

## 4 NO TRANSPORT NEEDED

We coordinate delivery and collection of all our hire fleet anywhere in Australia, saving you time and money.

## 5 NO REGISTRATIONS OR INSURANCES

Part of the costs in owning large trucks are the costly registrations and insurances. We pay all of these for you when you hire from us, so you save even more money.

## 6 SUPPLEMENT EXISTING CORE FLEET

Road maintenance program can be greatly impacted by unprecedented weather events; it makes complete sense to hire rather than buy to overcome the abnormality.

## 7 TRAINED STAFF AND SPECIALIST

Our labour hire operators are all trained specialists or we can onsite train customer operators. For urgent parts, we have our hot shot service where we deliver directly to site.

## 8 BREAKDOWNS / STAFF SHORTAGES

With unplanned events, your dedicated Ausroad hire manager can respond and send the right equipment or team members to keep you on target.

# MULTIPATCHER™

## ROAD MAINTENANCE TRUCK

Versatility of application makes the Multipatcher a valuable asset in not only routine sheeting and edge repairs, it rapidly deploys to remediate storm damaged pavements over large areas. AUSROAD Multipatchers are commonly utilised on the coastal areas to the remote regions of Australia.

It features the unique venturi distributor that minimises blockage with other special operator safety features including the non-tipping hopper that eliminates height clearance and weight shifting situations.

The front mounted boom allows full visibility whilst driving, reducing operator fatigue. Operator controlled rear arrow board, roof signage and high profile warning devices makes the Multipatcher very noticeable to other approaching road users whilst in operation.

Available in 4 and 6 cubic metres, wet and dry hire.

### **One Stop Solution:**

Emulsion, asphalt, aggregates, stabilisation products or other consumables can all be supplied through us at AUSROAD Plant Services. Portable emulsion storage also available.

# HD SERIES

## ROAD MAINTENANCE TRUCK

AUSROAD Horizontal Discharge Units (HD Series) are designed to deliver asphalt or quarry products to the rear of the unit easily via a chain conveyor for required applications. It's suitable for a variety of maintenance tasks dependent on optionally fitted equipment.

Keeps asphalt hot whilst in transport with automated thermal tarps. It is a premium quality road maintenance machine utilising low-cost materials to produce high quality road repairs.

It's suitable for large/small pothole patching, heavy maintenance, patch compaction and general maintenance repairs.

Various attachments to dispense asphalt and quarried products.

- Rear Asphalt Paver
- Spreader Box
- Power Chute
- Available Wet and Dry Hire

### **One Stop Solution:**

Emulsion, asphalt, aggregates, stabilisation products or other consumables can all be supplied through us at Ausroad Plant Services. Portable emulsion storage also available.

# AUSROAD® POWDER SPREADER

**Efficient | Accurate | Operator-Friendly**

The AUSROAD Powder Spreader is purpose-built for transporting and accurately dispensing cement, lime, and other powder products used in road base stabilisation. Designed with safety and performance in mind, it ensures precise material delivery during road formation works.

- **Safe & Simple Operation** – Fully controlled from the safety of the driver's cabin
- **Precision Application** – Uniform spreading for optimal stabilisation
- **Built for Site Efficiency** – A range of features to enhance on-site performance and reliability

Engineered for tough conditions and ease of use, the AUSROAD Powder Spreader is the ideal solution for modern stabilisation projects.

# CRACK SEALING TRAILERS

AUSROAD is proud to be the exclusive distributor of CIMLINE Crack Sealing Trailers in Australia, delivering world-class crack sealing technology to local road networks. The Crack Sealing Trailer is built for simplicity, efficiency, and safety — offering long-term value and superior pavement preservation.

Its low-profile design allows for safe, ergonomic loading, helping to reduce operator fatigue and improve onsite safety. A high-efficiency diesel-fired heating system with a double-jacketed boiler ensures consistent melting performance, while the electrically heated hose and wand system provides precise application with minimal waste. With automated run, clean-out, and cool-down modes, the CIMLINE Crack Sealing Trailer is easy to operate and requires minimal crew training. Quiet operation and low emissions make it ideal for use in both urban and regional settings.

The CIMLINE Crack Sealing Trailer is a smart solution to extend pavement life and maximise road performance. Contact AUSROAD to arrange your Crack Sealing Trailer hire and extend the lifespan of your roads.

# ADVANCED WARNING VEHICLES

Our Advanced Warning Vehicles are equipped with:

- GPS tracking for real-time monitoring
- Compliant signage demarcation tailored to your specific project needs

Our Qualified and Certified Operators hold all the necessary qualifications, including:

- Traffic Controller RIIS00054
- Implement and Manage Traffic Plan RIWHS302E
- Transport for NSW Vehicle Class 741B

## End-to-End Road Maintenance Solutions

At AUSROAD, our services provide one point of contact for all your road maintenance requirements — ensuring seamless coordination, clear communication, and efficient project delivery.

## Wet Hire Solutions for Road Maintenance and Events

AUSROAD offers wet hire options tailored for both road maintenance and event support, providing a comprehensive, ready-to-go solution that meets your specific project requirements.

# WHAT OUR CLIENTS SAY

**Tanika Todd**  
**Shire of Gingin Western Australia**

“We’ve had a seamless experience with Ausroad, no issues whatsoever. Their continued support has been fantastic. We’d highly recommend them for their efficient service, ease of dealing with, and flexible wet and dry hire options. The Multipatcher training we received has also been a huge bonus.”

**Krystal Parker**  
**Banana Shire Council**

“Banana Shire Council has had a very positive experience with Ausroad, particularly with the Advanced Warning Vehicle and Multipatcher wet hire. Darryl and his team were easy to work with, provided regular contact, and offered valuable advice. We highly recommend Ausroad for their excellent service, flexibility, and communication.”

**Gregory Stephens**  
**Shire of Trayning Western Australia**

“Ausroad’s Multipatcher has significantly improved our efficiency and quality of bitumen repairs. The hiring process was straightforward, and the support from Darryl and his team was outstanding. We’re impressed with the machine’s performance and would definitely recommend Ausroad for their reliability, timeliness, and excellent communication.”

**Adam Scott**  
**Narrabri Shire Council**

“We’ve had a very good experience with Ausroad, particularly with their HD series vehicle. Any issues that arose were sorted quickly, and their team handled everything efficiently. Our truck driver can deal directly with Ausroad, which makes the process smooth and hassle-free. We’d definitely recommend their service.”

**Corey Randall**  
**Saxon Chase Service**

“Working with Darryl and his team at Ausroad has been a great experience. We hired their crack sealer trailer and eventually purchased one for ourselves. The team is easy to work with, and we’d most definitely recommend Ausroad for their excellent service and support. We’ve had a positive experience with them over the past year, and we’re happy to endorse their business.”
