

ELASTOFLEX^{By}

THE ULTIMATE CRACK SEALANT FOR AUSTRALIAN ROADS

Ausroad is proud to offer Elastoflex, a revolutionary hot-applied crack sealant designed specifically for the Australian road maintenance market. With its unique properties and benefits, Elastoflex is set to change the way you approach road maintenance.

Key Benefits:

Easy to Handle and Use: Elastoflex comes in convenient 15kg blocks that are easy to maneuver and store.

No Mess, No Fuss: The innovative packaging melts with the product, eliminating additional handling and disposal requirements.

Long-Lasting Results: Elastoflex forms a strong thermal bond with the road surface, locking out water and contaminants to extend the life of your road infrastructure.

Australian-Tested, Australian-Approved:

Our formula is specifically designed to withstand the harsh and diverse climates found throughout Australia.

Why Choose Elastoflex?

Customizable Quantities: Ausroad supplies and distributes Elastoflex in custom block quantities for small jobs or palletized bulk quantities for large projects.

National Distribution: We deliver Elastoflex to your doorstep, anywhere in Australia.

Proven Performance: Elastoflex has been tested and proven to provide long-lasting results in various Australian environments.
