

# AUSROAD<sup>®</sup>

## NUMBER ONE FOR MINING WATER TRUCKS

Established in 1990, AUSROAD™ is a specialised mining plant vehicle manufacturer located in Queensland, Australia. We supply innovative, high quality, reliable vehicles to leading domestic and international mining companies, with a strong focus on increasing accuracy, efficiency and safety on the mine site.

Over 30 years, AUSROAD™ has built a global reputation for providing unmatched results that is second to none. We deliver on time with confidence and can quickly and efficiently adapt to customers' individual requirements.

**ACCURACY. EFFICIENCY. SAFETY.**

# AUSROAD™ WATER TRUCKS

## DELIVERING RELIEF FROM DRY AND DUSTY CONDITIONS

AUSROAD™ Water Trucks have been designed to survive the rugged conditions of Australian mining. They are built tough.

As with every AUSROAD™ vehicle, safety is at the forefront of this truck's design and application. With a massive water capacity of 21,000L, these trucks are the vehicle of choice for large scale mines needing efficient wet down processes to reduce dust disturbance and subsequently increase safety.

## WATER TRUCKS QUICK FACTS

## CUSTOMISATION

The AUSROAD™ Group knows not every mine site is the same. That's why we offer tailored inclusions and will customise the design to your specifications.

AUSROAD™ can design and build any mine support vehicle, from its innovative Contour Stemming units to its Drills Support and Service Vehicles.

## HIRE AND CONTRACT OPTIONS

AUSROAD™ offers both wet and dry hire and contracts to clients across Australia and the world.

We have a low hours fleet of 32 Stemming Trucks and 8 Water Trucks, well maintained with immediate availability. We have significant contract operations employing a staff of 45 trained and experienced operators.

Stemming Truck and Water truck dry hire:

When you hire an AUSROAD™ Stemming Truck or Water Truck you'll receive:

- Delivery to any part of Australia
- Full training and backup support
- An experienced and dedicated team with over 25 years of experience in materials handling
- Well-maintained vehicles
- Regional maintenance centres for support, with the team on-call
- Dedicated manager to assist with all inquiries

To discuss hire and contract options for your operation, talk to us today.

## COMPETITIVE ADVANTAGES/USP

The AUSROAD™ Group knows safety is fundamental to our company's and our clients' success. That is why it is at the forefront of every operation and the first consideration in new product development. From new technology paving the way forward for staff safety to on-the-ground management, Ausroad's commitment to safety is part of our DNA.

The AUSROAD™ Group is a boutique, dynamic team of professionals with years of diverse industry experience. The company has a trusted reputation for versatility, flexibility and quality. With thorough product design and technical knowledge, AUSROAD™ delivers unrivalled safety, efficiency and reliability.
